## EXPERIENCE

### Software Engineering Job Simulation

JPMorgan Chase & Co 2025

- Engineered data visualizations using live financial data feeds
- Analyzed stock price data to support trading and technical analysis workflows

## EDUCATION

### Introduction to Computer Science

Harvard University

2025

- CS50x: Introduction to Computer Science - Harvard University ()

### +2 Higher Secondary Education

Kathmandu, Nepal

Kathmandu, Nepal

## PROJECTS

### Goal Tracker Pro

07/2025 - 01/2026 <https://taracker.vercel.app/>

Goal Tracker Pro – React, Node.js, Express, SQLite

- Built a full-stack productivity app with secure REST APIs and persistent storage.
- Optimized React Context state management, reducing unnecessary re-renders by ~30%.

### Fly Air Ambulance

10/2025 <https://fly-medical-ambulance.vercel.app/>

Fly Air Ambulance – React, Tailwind CSS, Vite (Mock Backend)

- Developed a real-time tracking UI with dynamic geolocation updates and live ETAs.
- Designed a mobile-first, accessibility-focused interface for emergency use cases.

### Software Engineering Job Simulation

01/2026

Software Engineering Job Simulation – JPMorgan Chase & Co.

- Engineered data visualizations using live financial data feeds.
- Analyzed stock price data to support trading and technical analysis workflows.

## SUMMARY

Frontend Developer Performance-driven Frontend Developer specializing in React and Next.js. Harvard CS50x certified with strong computer science fundamentals, data structures, and algorithms. Experienced in full-stack architectures using Node.js, Express.js, and Flask. Completed JPMorgan Chase & Co. software engineering simulations focused on data visualization and technical analysis.

## TRAINING / COURSES

### Git Essentials for Developers - Udemy

Udemy

## LANGUAGES

English

Advanced

## SKILLS

JavaScript (ES6+)	TypeScript	Python
HTML5	CSS3	React.js
Vite	Tailwind CSS	Bootstrap 5
Framer Motion	Node.js	Express.js
Flask	REST APIs	SQLite
Vercel	Postman	Linux
